

## Industrial Scent Direct 100-11-ISD-8001

### Overview:

The *Industrial ScentDirect* is ideal for creating ambient scent environments in large settings. The advanced diffusion technology converts liquid fragrance into a fine, dry mist that is projected to the desired area via high efficiency fan.

This system is designed to maximize the efficiency of scent delivery and cover a large area with more intensity. The system is loaded with a bottle of fragrance oil that is easily replaceable.

### Product Features:

- Advanced atomization technology
- Adjustable scent intensity settings
- Low maintenance with few moving parts
- Simple and clean replacement of scent oil
- Twenty-four hour clock with variable cycle times
- Powerful 200CFM fan
- Liquid consumables with recyclable bottles
- Weather Resistant\*
- \*Optimal performance in dry environments
- Does not need existing HVAC infrastructure

### ISD8001 - Technical Specifications

System Dimensions	19.5" H x 14" W x 17.5" D 49.5 cm H x 35.6 cm W x 44.5 cm D
Weight	42 lbs (19kg) with 4.5 kg cartridge
Coverage	Up to 60,000 cu. ft (1700m <sup>3</sup> )
Variable Intensity	10 sec to 10 min cycle timer variable pump speed & variable fan speed
Day Timer	2 Events, 24-Hour timer
Power Requirements	100-240V AC 1.5A maximum (60 watts nominal) includes Power adapter with 6ft./1.8m cable (UL/CUL/PSE/D/NOM/CCC/CE/TÜV listed)
