

ScentPOP™

POINT OF PURCHASE SCENT DELIVERY SYSTEM

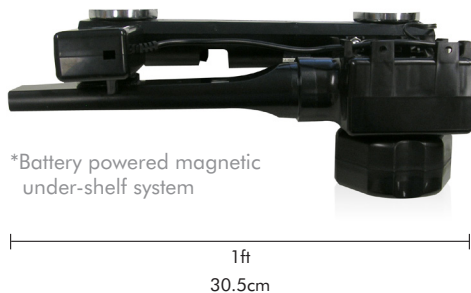

Global Technology Integrators

Overview:

The ScentPOP™ scent delivery system is ideal for Point-of-Purchase sampling and promotions such as scent sampling at vending and kiosk centers. It can be easily incorporated into existing displays, fixtures, vending machines and kiosks. The AC or battery powered unit is also available with magnets to easily attach to any standard retail shelf. The system is loaded with a scent cartridge that is embedded with a unique fragrance. Easy to replace, these cartridges enable you to change scents to coordinate with new themes or seasons and deliver scent in a clean and controlled way.

Product Features:

- Directional scent delivery up to 12 feet (3.65m)
- Over 1,000 quality scents to choose from
- Utilizes replaceable easy to install scent cartridges
- Cartridges last 300 hours, (10 hours per day for 30 days in typical installations)
- Adjustable duration settings or 15 - 60 -180 seconds
- Motion detection sensor
- Optional push button for manual control ie. sampling

*Battery powered magnetic under-shelf system
